

### Frequently Requested Statements

## Ovacore™ Hydrolyzed Eggshell Membrane Powder

### Ingredient

Ovacore as manufactured by BiOva, LLC contains 100% hydrolyzed eggshell membrane. There are no additives or preservatives. By nature this product contains up to 93% protein, less than 9% ash, and less than 6% moisture.

BiOva products are produced in compliance with all applicable regulatory requirements.

All BiOva products are packaged and shipped in a manner that maintains the integrity of the products for human consumption.

### Natural Products

Hydrolyzed Eggshell Membrane products, manufactured by BiOva, LLC are natural products containing 100% hydrolyzed eggshell membrane.

There are no additives or preservatives.

BiOva, LLC certifies that their products have been shown to be free of all tested pesticides and antibiotic residues.

Because the farms producing raw material for BiOva, LLC, do not utilize hormones, hormone testing has not been performed.

### OVI

BiOva certifies that in the manufacturing process of our hydrolyzed eggshell membrane powder no organic solvents were used.

Therefore we can confirm to you that no solvents are likely to be present.

### Allergen

Ovacore as developed by BiOva is purely hydrolyzed eggshell membrane. Numerous safety studies, including the Radioallergosorbent Test Inhibition (RAST-inhibition) study and the Buehler Allergen study, have been conducted with BiOva's Ovacore ingredient.

#### **No allergenic activity has been detected through testing\*.**

\* No allergen tests are currently available specific to eggshell membrane. While it appears highly unlikely that an allergenic reaction would occur, BiOva suggests that those with known egg based allergies consult with their healthcare providers prior utilizing the product via either ingestible or topical delivery.
